

Key numbers

What lands in the bank each month

~\$6,152

\$6,066 to \$6,193

What a month costs

~\$4,320

\$4,178 to \$4,461

Left over each month

~\$1,666

\$1,439 to \$1,849

Share of take-home saved

~29.8%

25.9% to 33.2%

Owned minus owed

\$54,840

Everything owed

\$12,410

How long cash lasts

F 3 months

N 4 months

L 4 months

How far along

~4.2%

4.1% to 4.4%

Changes since last time (17 Sep 2026)

- Savings: balance was \$9,800, now \$10,200
- Sapphire Preferred: balance was \$980, now \$640
- Restaurants and takeout: amount was \$250 to \$350, now \$240 to \$320

Most important to know

- Housing takes about two fifths of take-home
- The 401k match is fully taken; the Roth IRA fills about half of its room
- Cash covers about three months of full spending

Where you are amazing

- Four accounts, all with named beneficiaries except the HSA
- Savings land every month without fail

Where you are struggling

- Restaurants and clothing are still rough numbers
- Parking tickets are a \$480 a year habit

Do more of / do less of

More: Keep the Roth transfer automatic; move the gifts line to a known figure after the holidays.

Less: Street parking downtown on Thursdays.

To-dos

Task	Owner	Due
Send the 401k statement	Maya	20 Oct 2026
Confirm the Sapphire hotel credit posted	Eli	12 Oct 2026

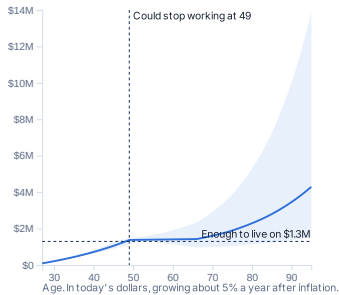

Goals

- Japan with my sister: \$6,000 by Oct 2027
- Condo down payment: ~\$80,000 by Jun 2035

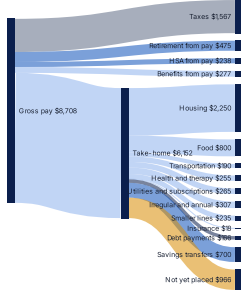

Bring next time

- Direct clients:** Freelance illustration (gross pay)
- Fidelity:** 401k (contributed this year), HSA (contributed this year)
- From memory or a statement:** Tutoring, occasional (amount), Restaurants and takeout (amount), Clothing and personal care (amount), Travel (amount) and 3 more
- Kaiser:** Health (employer) (coverage)
- Lumen Health:** Product designer (costs of working)
- Unum:** Long-term disability (coverage)

What you could have over time

Where the money goes each month

Assumes 5% a year after inflation (3% to 7%), a 4.0% withdrawal rate and Social Security from 67, in today's dollars.
